

New Oakville Hospital Construction Site *as of December 30, 2013*

**View looking east from the new western boundary road, at the head of the main entrance to the new hospital. Currently the cladding is being installed and the exterior shell is nearly complete. Interiors are expected to be complete by Summer 2015 and we will open to the public in December 2015!

The below image is an architectural rendering of the above western elevation of the new Oakville Hospital (doesn't show the parking garage). *Provided by Adamson Architects & Parkin Architects.*
